

## INNERWICK CHURCH UNDER REPAIR

June 2010

Restoration work is currently underway on Innerwick Church in the Parish of Dunglass much to the delight of the parishioners and local residents.

Fundraising by the Parish of Dunglass has been very productive with donations provided from various sources in the local area. Community Windpower Ltd and BeGreen Dunbar & District have supplied valuable funds towards the necessary work.

Community Windpower Ltd recently visited Innerwick Church to present a cheque for £10,000 to representatives from the Parish of Dunglass. This vital funding has ensured the repair and restoration of the church and bell along with general repairs and repointing of the Church.

The Parish of Dunglass look forward to inviting Community Windpower Ltd to return to Innerwick Church again once all the repairs are complete to see the building restored to its former glory.

Pictured below (left to right) are:

Rev. Kenneth Walker (Locum Minister), Ray Ball (Community Windpower Ltd), Margaret Young (Session Clerk), Ella Macdonald (Assistant Treasurer), Donald Young (Property Convenor) and Rob Fryer (Community Windpower Ltd) outside Innerwick Church.
